Good afternoon-

Please see below for requested measurements:

- Cermak Ramp Measurements:

Width=10'

Slope (measured in different locations on ramp)= 1:16
Length (ramp length) = 44'-0 1/2"
Total Rise= Appx 2'- 7"

Also, I checked the ramp from the same tunnel going into the basement of Division 8- this appears to be slightly out of compliance. I can show you or Sabrina this as well. Looks to be like whomever did the concrete work is to blame for this. Might want to add this one in as well if county is having someone make these ADA Compliant. Let me know if you need anything further.

Thank you,

TJ Tyrrell
